 **JAPAN OSAKA**

# Introduction to **BOOTH No.D2-9131**

---

**Manufacturing Indonesia Series 2024**  
**Date : December 04th(Wed) - 07th(Sat), 2024**

# We introduce excellent high-tech manufacturing products and technologies from Osaka, JAPAN.

Osaka has many small and medium-sized companies with unique technologies and craftsmanship skills, and those companies have been supporting Japan's leading businesses for many years. Please visit us to explore our highly-sophisticated technology, processing skills and superior services, and maximize business opportunities together !

## OUR ORGANIZATION

---

Osaka Business Development Agency (OBDA) is an organization supporting small and medium-sized enterprises(SMEs) based in Osaka.

International Business Support Team is one of OBDA's departments providing various support programs for Osaka SMEs doing/expanding their business with overseas enterprises.

These programs include international business seminars, consultation services, business matching events both within and outside of Japan, as well as participation in international exhibitions.

Under the International Business Support Team, we have the International Business Support Center (IBSC), which offers consulting services to support and facilitate international business activities of Osaka-based SMEs.

At IBSC, our experienced trade coordinators provide expert advice, consultation, and business matching assistance not only for Osaka SMEs but also for overseas companies coming to Osaka, ensuring smooth negotiation with Osaka companies.

# Kami memperkenalkan produk dan teknologi manufaktur berteknologi tinggi yang luar biasa dari Osaka, JEPANG.

Osaka memiliki banyak perusahaan kecil dan menengah dengan teknologi unik dan keterampilan kerajinan tangan, dan perusahaan-perusahaan tersebut telah mendukung bisnis terkemuka Jepang selama bertahun-tahun. Silakan kunjungi kami untuk menjelajahi teknologi kami yang sangat canggih, keterampilan pemrosesan, dan layanan unggulan, serta memaksimalkan peluang bisnis bersama!

## ORGANISASI KAMI

---

Osaka Business Development Agency (OBDA) adalah organisasi yang mendukung usaha kecil dan menengah (UKM) yang berbasis di Osaka. Tim Dukungan Bisnis Internasional adalah salah satu departemen OBDA yang menyediakan berbagai program dukungan untuk UKM Osaka yang melakukan/ memperluas bisnis mereka dengan perusahaan luar negeri. Program-program ini mencakup seminar bisnis internasional, layanan konsultasi, acara pencocokan bisnis baik di dalam maupun di luar Jepang, serta partisipasi dalam pameran internasional.

Di bawah Tim Dukungan Bisnis Internasional, kami memiliki Pusat Dukungan Bisnis Internasional (IBSC), yang menawarkan layanan konsultasi untuk mendukung dan memfasilitasi kegiatan bisnis internasional UKM yang berbasis di Osaka. Di IBSC, koordinator perdagangan berpengalaman kami memberikan saran ahli, konsultasi, dan bantuan pencocokan bisnis tidak hanya untuk UKM Osaka tetapi juga untuk perusahaan luar negeri yang datang ke Osaka, memastikan negosiasi yang lancar dengan perusahaan Osaka.

<b>Main Products</b>	<p>Kami menyediakan berbagai jenis pembersih logam, anti karat, pelumas, dan agen pelepas cetakan. Pembersih: Selain produk umum, kami juga memiliki semprotan pembersih untuk kontak listrik dan komponen elektronik, serta semprotan pembersih yang tidak mudah terbakar. Anti karat: Selain produk umum, kami juga memiliki semprotan anti karat yang diperkuat, semprotan pelumas anti karat molibdenum, dan semprotan pelumas anti karat untuk kontak. Pelumas: Kami memiliki berbagai jenis pelumas molibdenum disulfida, termasuk semprotan pelumas silikon molibdenum disulfida yang tahan panas, tahan dingin, dan tahan beban. Agen pelepas cetakan: Kami menyediakan produk fluor (semprotan minyak, semprotan pelumas, semprotan bubuk).</p>	<p>One of our main products is special grease based on MoS2. This year we developed cleaning agents, rust prevention products, releasing agents besides MoS2 grease and aerosol products. DKD-1405 Contact spray cleaner for electrical contacts and electronic components, and DKD-9000 non-flammable spray cleaner, DKD-1901 contact anti-rust grease spray, DKD-0481 MoS2 silicone grease spray are newly added to our product line.</p>
<b>Main Technology</b>	<p>Selama bertahun-tahun, kami telah memproduksi dan menjual pelumas khusus. Kami menggunakan molibdenum disulfida (MoS2) yang diimpor langsung dari perusahaan tambang di Amerika sebagai bahan baku untuk berbagai jenis pelumas dan semprotan khusus. Selain itu kami memproduksi cat pelapis permukaan logam dan juga memproduksi komponen plastik khusus.</p>	<p>We have been doing business for more than 70 years in Japan. One of our main business lies in special lubricants based on Molybdenum disulfide (MoS2). MoS2 is a splendid material as lubricant. Just 3% of MoS2 reduces friction by 10%, and shows good heat resistance as well as high load resistance.</p>
<b>Main customer</b>	<p>Pelanggan kami meliputi grosir perlengkapan otomotif, grosir perlengkapan industri, produsen suku cadang otomotif, produsen mesin industri, dan produsen kereta api.</p>	<p>Automotive Industry, Car Maintenance Shop, Motorbike and Scooter Dealer and Maintenance Shop, Industrial Machine Manufacture, Railway Company,</p>
